## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Cancel claims 9-18.

### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-8, drawn to firearm shot helmet detection system, classified in class 340, subclass 621.
  - II. Claims 9-18, drawn to helmet camera monitoring system, classified in class 340, subclass 384.1.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP §

Art Unit: 2636

806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it can be used to monitor a variety of situations, including a sporting event, or secured area. The subcombination has separate utility such as surveillance monitor.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. During a telephone conversation with Stephen Beuerle on 05/05/2005 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-8. Affirmation of this election must be made by applicant in replying to this Office action. Claims 9-18 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

6. This application is in condition for allowance except for the presence of claims 9-18 drawn to an invention non-elected without traverse. Accordingly, claims 9-18 have been cancelled.

***Allowable Subject Matter***

7. Claims 1-8 are allowed.

8. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or suggest a firearm shot helmet detection system, wherein a plurality of helmets worn by mobile fighters detect the presence and geographical origination of a

firearm shot, and wirelessly communicate distance information to all other helmets, wherein each helmet utilizes a triangulation calculation, for the purpose of determining their respective position relative to the firearm shot.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
